

Taith Grant Application FAQs (All Pathways)

FAQ

1. How can I find my eligibility reference?
Please check your inbox for an email titled 'P12024-EC-' (or replace the year or P1/P2 as required)... followed by six digits. If you cannot locate your eligibility reference, please email enquiries@taith.wales.
2. How can I recover my JotForm/application link?
Please check your email/junk email folders for an email from 'JotForm'. If you cannot locate your eligibility reference, please email enquiries@taith.wales.
3. Are Taith able to help identify a suitable international organisation to partner with our organisation?
No. It is the responsibility of the applying organisation to identify suitable international partners for their project.
4. I am unable to submit a supporting document (e.g. three months of bank statements) at this time. Can I submit this later?
Please contact enquiries@taith.wales if you are experiencing difficulty in providing documents prior to the deadline. You must have agreement prior to the deadline of any late documentation. Any forms submitted without documents, where this has not been agreed with Taith, may not be accepted.
5. What can I do if I am unable to submit unredacted bank statements (i.e. due to privacy or data protection concerns)?
Taith are unable to progress any application without the minimum requirement of three recent bank statements included. However, where there are valid privacy concerns, Taith will accept bank statements with the names omitted – providing the financial information remains intact.
6. Is there any additional support available to me to help me with my application?
Taith host several virtual sessions to support applicants with their application. See [the Events page](#) on the Taith website for more information.
Applicants in the Youth, Schools and Adult Education sectors, from organisations with little or no experience of international exchanges, may also receive additional support from our 'Taith Champions'. Please see the [website for more information](#).
7. I have previously applied for a 'Higher Education - Research' grant but cannot find this option in the dropdown menu. Is funding still available for the Research sector?
Yes. The 'HE' (Education) and 'RE' (Research) funding strands have been merged, as of Pathway 1 2024. Higher Education organisations may apply for either one or both as part of the same application. (Note: organisations may not apply for more than one grant from the same sector).

8. Is there offline/pdf version of the Programme Guide available?

No. Please use the online version (via the Taith website).

9. I cannot submit my eligibility form as it says 'error: File could not be uploaded for some reason'.

The supplier set-up form must be uploaded as an Excel document. Pdfs, word and images will not upload to this field.
